MINTO EXPLAINS HOSING CONVICTS

MEN SUBJECTED TO TREATMENT WERE MOST DANGEROUS AND UNRULY.
Every Other Means Under Sun Had Been Tried, Declares Ex-Warden. But Without Any Effect.

SALEM, Nov. 18.—John W. Minto, who resigned a few days ago as superintendent of the Oregon State Penitentiary, explained in detail yesterday the incidents and happenings leading up to the "hosing" of two prisoners, as a result of which Governor Withcombe and other members of the board of control demanded his resignation.

Jefferson Baldwin, one of the prisoners who was subjected to the "hose treatment" to which the governor found objection, is one of the most desperate and most unruly men ever confined in the state prison, says Mr. Minto. James Curtis, the other man who was incited to his deeds of violence by Baldwin, he explains.

"I tried every means under the sun, from extreme kindness to confinement in the dungeon, to control Baldwin," said Mr. Minto yesterday, "and I couldn't make him behave."

"As a last resort I gave both him and Curtis the hose treatment, a punishment not unduly cruel. We handcuffed their hands together and fastened them to the cell door above their heads."

Baldwin "Hosed" Longest.
"We treated Baldwin first. After soaking him for half a minute by the watch, I asked him if he had had enough. He didn't answer. We repeated this with four half-minute periods. Then he cried 'enough' and promised to be good. We gave Curtis only one soaking for half a minute."

"Then we took the men back to their cells gave them clean, dry clothing and four pairs of blankets. They didn't suffer any ill effect after the hosing."

"Both men were quiet and well behaved after that until last Tuesday when they learned that the board of control had asked for my resignation. That encouraged them again, and they broke out anew."

SHORTER STOGIES AND HIGHER PRICES PITTSBURG THREAT

PITTSBURG, Nov. 17.—The wheeling stogie is to be shorter and higher. Manufacturers announced today that, because of the rise in the price of tobacco beginning December 1, Pittsburgh's favorite smokes will be cut one inch, to six inches and the price will be increased from three to five cents to five to ten cents. Ohio factories are expected to adopt the same price system.

NEW OPERA OPENS NEW YORK SEASON AT METROPOLITAN

Caruso, De Luca and Hempel Please in "Les Pêcheurs des Perles."
NEW YORK, Nov. 17.—Richer in repertoire notwithstanding the difficulties of war, and with an increased list of subscribers, the Metropolitan Opera company opened its season last night.

The first night, which is always one of the most important events of the social season, was made the occasion for the presentation of a work new to American opera goers—Bizet's "Les Pêcheurs des Perles"—and the novelty was enthusiastically received. It had its premiere performance in 1863 in Paris and two acts were sung at the Metropolitan twenty years ago by Mine Calve. The scene is laid in Ceylon.

Enrico Caruso, in the tenor role, and Giuseppe de Luca, baritone, with Friend Hempel, soprano, the stars, already were familiar with the opera. Caruso and De Luca sang "The Pearl Fishers" together in Genoa eighteen years ago, and General Manager Gatti-Vasazza produced it in his home city of Ferrara early in his career as an impresario.

A duet by Caruso and De Luca and an ensemble ending in a trio with Madame Hempel were warmly applauded. Gloria Polacco conducted.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestine all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly inflamed by constitutional conditions, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.
